

Notice to All Trading Partners Re: DSCSA Readiness

January 21, 2025

Dear Valued Trading Partner,

We at Capital Wholesale Drug Co are fully committed to meeting the serialization requirements as defined by the Drug Supply Chain Security Act of 2013. On October 9, 2024, the FDA announced an industry exemption, allowing eligible trading partners who can demonstrate documented attempts at establishing data connections to continue trading without meeting the enhanced drug distribution security requirements until the new deadlines. At present, we are exporting EPCIS data for our downstream trading partners on all applicable orders if we have been provided a GLN. As such, Capital Wholesale Drug intends to take full advantage of this exemption and will continue to receive and ship qualified products until the new deadline of 8/27/25 for wholesale distributors.

To initiate the EPCIS data connection process, please click [here](#) to access our onboarding survey, or scan the following QR code:

We will then reach out with information regarding next steps depending on your responses. Please note that EPCIS data will only be generated for orders processed on or after the date your GLN is entered into our system.

If you have not already done so, we invite you to connect with us and provide feedback to ensure complete accuracy and reliability of our outbound data. Please report any inaccuracies you may find to DSCSA@capital-drug.com.

Thank you,

Jessica Richards Hosgood, PharmD, BCGP
Vice President, Pharmacy Operations and Compliance
